

Dear Sir,

Over the past decade **African Trade & Contracting** has emerged as one of respected general contracting firms in Egypt. Again and again, in the area of construction, we have proven our ability to take on large, complex projects and complete them on time, on budget, and at the highest levels of quality.

Our growing reputation for excellence and responsiveness is no accident. It is a natural consequence of the values that have guided our company since its founding. These include an energetic enthusiasm for what we do. Sensitivity to the needs of our customers. A willingness to accept total responsibility. And a craftsman like pride in knowing that what we build will last for generations. While some in our industry might find these attitudes old-fashioned, we believe they are why knowledgeable businesses, organizations and architects throughout our region place their confidence, and their trust, in ATC Construction. Simply put, we think it's a better way to build.

Founded in 2003 by Eng. Hany Mahmoud, African Trade Company is located in Egypt.

Since we began operations, we have contracted for over ,150 million EGP in construction projects throughout our geographic region which includes all areas in Egypt.

To produce a quality-crafted facility, we closely manage each project to completion, acting at all times in the best interest of the owner. African Trade believes in delivering unparalleled construction management service tailored to our customer's unique and individual needs.

ATC's preconstruction service centers around "doing our homework". We pride ourselves on becoming involved in all aspects of your project. Lending our construction experience to the design team as well as understanding and managing the complicated municipal approval process.

African Trade construction service is based on "hands-on" project management. Our strength is the ability to schedule concurrent short and long-term construction activities, and then effectively manage both for timely project completion. We consistently meet and beat our customers' construction deadlines. At Benchmark, quality will never be compromised.

African Trade is, after all, a service organization believe that there is no better proof of a commitment to service than a project which demonstrates the integrity of its builder. What we do for a living is not especially unique. What we believe is unique is our commitment to honesty, concern for the customer, timeliness and a quality project.

At AFRICAN TRADE & CONTRACTING, we stake our name and reputation on it.
